

Back To The Start

(Anthony Gomes / Tom Hambridge)

When loves runs out
I'm gonna renew my subscription
Throw out these pills
I don't need a prescription
It's hard to have a conversation
When you're on your own
I'm gonna hop this cannonball
All the way home

I'm gonna get back
Back to where I started
I gotta get back
Back to where I started
I'm gonna follow my heart
And get back to the start

I gotta find me

A brand new situation

I gotta find me

A brand new congregation

A spoonful of heartache

Don't make it all go down

I'm gonna find some sugar

On the other side of town

I'm gonna get back

Back to where I started

I gotta get back

Back to where I started

I'm gonna follow my heart

And get back to the start

One Last Time

(Anthony Gomes / Jim Peterik)

One last time

I'm standing here moaning for one last kiss

Once for the good times

And once for the times we missed

'Cause we're living on borrowed time

Let's cross that line

One last time

Don't think twice girl

Can't you see it's tearing me apart

Your love's like poison

Poison headed straight for my heart

We're living on borrowed time

Let's cross that line

One last time

One last time

Oh girl I can't let you go

I'm in misery child

A pain that you'll never know

'Cause we're living on borrowed time

Let's cross that line

One last time

Love Sweet Love

(Anthony Gomes / Jim Peterik)

The lonely life I've been living

It's got me going insane

Standing at love's station

But always missing the train

I wanna live it

I wanna give it

I gotta feel it

People let me tell you 'bout

Love sweet love

Raining down from heaven above

Love sweet love

I gotta find it

Love sweet love

Out from nowhere I saw her

Blue jeans and high heel shoes

Turned my whole world upside down

Sure enough shook me out of the blues

I wanna live it

I wanna give it

I gotta feel it

People let me tell you 'bout

Love sweet love

Raining down from heaven above

Love sweet love

I gotta find it

Love sweet love

Fly Away

(Anthony Gomes / Jim Peterik)

Bluebird

Outside my window

You're singing in the rain

You keep me up all night

You ain't the sign

That things are gonna be alright

Ever since the day that

She's been gone

You've been singing your

Bittersweet song

Fly Away

Fly Away

Fly Away

Fly Away

Bluebird

Sing a different song

Now you're a sad reminder

Of what might have been

Can you take a message with you

On the wind

Tell her that I moan

Turned my whole night through

Now I sing my songs

In shades of blue

Fly away

Fly away

Fly away

Fly away

Ever since the day that

She's been gone

Woke up in jail this morning

Woke up in jail this morning

Bittersweet song

Can't you see

I'm in misery

Bluebird send her

Back to me

Fly away

Fly away

Fly away

Fly away

Darkest Before The Dawn

(Anthony Gomes)

I was born all alone

In the darkness

I couldn't find my way home

And you were my only light

But since you've been gone

The pain cuts me like a knife

Your words keep me strong

Through my darkest day

Even though you're gone

I can hear you say

Keep on

Holding on

It's darkest before the dawn

I'm so lonely

I'm lonely and blue

I'm just trying to live in this world

This world without you

Your words keep me strong

Through my darkest day

Even though you're gone

I can hear you say

Keep on

Holding on

It's darkest before the dawn

Room 414

(Anthony Gomes)

Heading out to Texas

From New Orleans

Heading out to Texas

From New Orleans

Ain't gonna stop

'Til I get to room 414

Kind hearted woman

She done gone mean

That kind hearted woman

She done gone mean

I'm preaching the blues

In room 414

Woke up in jail this morning

Last night I made a scene

Woke up in jail this morning

Last night I made a scene

Threw me in

Cell number 414

Heading out to Texas

From New Orleans

Heading out to Texas

From New Orleans

Ain't gonna stop

'Til I get to room 414

Voodoo Moon

(Anthony Gomes)

Down in Mississippi

By highway 49

Lived an old bluesman

From another time

And when he played his guitar

You could hear a thousand souls cry

Underneath the stars

Of the delta sky

The ghosts of Clarksdale

Dance under the light of the

Voodoo moon

Of the voodoo moon

Voodoo moon

Of that voodoo moon

You can feel the magic

In the midnight air

It's more than superstition

When the spirits gather there

And in the still of the night

When all is calm

Just listen to the wind

And you can hear his song

'Cause the ghosts of Clarksdale

Dance under the light of the

Voodoo moon

Of the voodoo moon

It's a voodoo moon

That voodoo moon

I did not believe it

'Til I saw it with my own eyes

Underneath the southern stars

The spirits come alive

Down in Mississippi

By highway 49

Lived an old bluesman

From another time

And the ghosts of Clarksdale

Dance under the light of the

Voodoo moon

Of the voodoo moon

Voodoo moon

It's that voodoo moon

Anywhere You Run

(Anthony Gomes / Jim Peterik)

Don't say it's over

Even before we started

Don't say that you love me

If you need some time to be certain

I've been trying to walk that line

Between holding on and letting go

But baby I want you to know

Anywhere you run

I'll be waiting

Anywhere you are

I'm there

I've been your shelter

I've been your shoulder to cry on

I've been a place of refuge

One thing that you could rely on

You've been trying to walk the line

Between holding on and letting go

But baby I want you to know

Anywhere you run

I'll be waiting

Anywhere you are

I'm there

Last Bluesman Gone

(Anthony Gomes)

What we gonna do

When the last bluesman's gone

Who's gonna sing the truth

Who's gonna carry on

Who's gonna heal the world

With their song

When the last bluesman's gone

Big Jack gone

Fuzz gone

Koko gone

Pinetop gone

Gary Moore gone

Big Eyes gone

Honeyboy gone

Odetta gone

They're all gone...

Hubert Sumlin gone

Etta gone

Miss Etta James gone

They're all gone...

Up 2 Zero

(Anthony Gomes / Jim Peterik)

Daredevil comeback

Feel the spotlight shine

Tightrope dancing

Another chance to walk the line

Take me up

Take me up

Take me up

Up to zero

Countdown pounding

Throw this rocket into space

My engine's burning

Break ground and levitate

A brand new day

A new chance to fly

Like a shooting star

Thrown back into the sky

Take me up

Take me up

Take me up

Up to zero

N°Abandonne Pas

(Anthony Gomes / French translation by Ninon Vinet Paradis and Eve Paradis)

Seul

Depuis si longtemps

Dans la noirceur je cherchais mon chemin

Mais toi tu étais ma lumière

Depuis que tu es partie

Oh! j'ai tellement mal

Tes mots me donnent le courage

De toujours espérer

Même si tu n'es plus là

J'entends ta voix

Tu dis

N'abandonne pas

Tu y arriveras

Après la nuit

Le soleil se lèvera

Seul baby, oh je me sens

Tellement seul

Dans ce monde

Je ne pourrais vivre sans toi

Tes mots me donnent le courage

De toujours espérer

Même si tu n'es plus là

J'entends ta voix

Tu dis

N'abandonne pas

Tu y arriveras

Après la nuit

Le soleil se lèvera
