

blues in Technicolor

blues in Technicolor (Gomes, Peterik)
I've had the blues • Since day one • Don't try to tell me •
I'm his bastard son • I've got the scars • I've felt the pain
• Deep down inside • We're all the same • The shade of
your skin don't matter my brother • 'cause I see the
blues in Technicolor • Close your eyes • What do you feel
• A rainbow of sound • A blues so real • Everybody's got
it • Don't sell it short • It's alive and well • Don't need no
life support • 'cause the blues is all about healing one
another • And I see the blues in Technicolor • It's
stronger by the minute • 'cause of all the colors in it • Its
grown beyond the delta • All around the world they've
got the down home groove • I see the blues • I feel the
blues • Blues is Technicolor

gonna have a party (Gomes)
Tell everybody we're gonna have a party tonight • Tell
everybody we're gonna have a party tonight • 'cause the
joint is jumpin' and the band is sounding tight • I brought
my guitar gonna lay some low down blues • I brought my
guitar gonna lay some low down blues • When it sounds
this good ya ain't got a thing to lose • Gonna have a party
and see • Gonna have a party • Gonna have a party just you wait

bad luck child (Gomes)
Behind every storm cloud • There's a silver lining there •
But the way its been coming down on me • I should be a
millionaire • Where can you run to • When you ain't got a
place to call your own • I was meant to sing these blues
• I got bad luck in my bones • That's why • Lord knows
that's why • I'm a bad luck child • What don't kill you
makes you stronger • When things go from bad to worse
• But the way I've been lifting myself from this heavy toll
• I should be Mr. Universe • Where can you run to •
When you ain't got a place to call your own • got bad
luck • I got it deep down in my bones • That's why • Lord
knows that's why • I'm a bad luck child • Everyday of my
life • There's always some kind of hardship or strife
• This blues train always heads in the same direction •
With me in the front row of the VIP section

walk the cathouse (Gomes)
Just like a piece of candy • I can't stop at one • And when
it come to fine women • Always gotta get me some •
Never got me in trouble • Never had to lie • I thought I'd
be a smooth operator • til the day I died • I got busted in
a two-timing crime • When my women caught me creepin'
• With another lover on the side • I stepped out of the
cathouse and into the doghouse • Out of the cathouse and
into the doghouse • Kicked from behind where the sun
don't shine • The backdoor hit me where the good Lord
put me • I said, "Listen up baby • For a man to
• Sometimes it takes more than one • If you want this
survive" • She said, "Listen up that • I'm more than
good stuff • You gotta realize that • With another lover on the
enough" • I got busted in a tow-timing crime • When my
women caught me creepin' • With another lover on the
side • I stepped out of the cathouse and into the doghouse
• Out of the cathouse and into the doghouse • Kicked
from behind where the sun don't shine • The backdoor hit
me where the good Lord put me

misery for company (Gomes)
Last night sweet misery came knockin' on my door • Last
night sweet misery came knockin' on my door • I opened
it up there stood my mother-in-law • Said her daughter
didn't love me no more • Misery called me on the
telephone • It was my boss big bossman this time • It was
Misery called me on the telephone this morning • I was
my boss big bossman this time • He said, "You're late
again for work • Best get your sweet thing on the
unemployment line" • I got misery one more time • When
I saw the preacher man walking down the street • I got
misery one more time • When I saw the preacher man
walking down the street • He said, "I'd pray for your soul
ain't never gonna meet"

love's got the power (Gomes, Peterik)
Headlines screaming out • It's the same news everyday •
Can you give me something • To take these blues away •
I've stayin' up stayin' out • Sometimes the whole night
through • I've been thinking about • Thinking about all we
gotta do • People saying things have gotta change • It
may sound simple but the truth remains • Love's got the
Power • To lead us from the dark • Love's got the power
• Just open up your heart • Love's got the Power •
Together we can stand • Love's got the Power • Another child
power's in our hands • Lightning thunder • Another child
with a gun • Can you show me a playground • Where the
innocent can run • It's turning up turning up • The heat is
so intense • Another early graduation • Behind the
graveyard fence • People saying things have gotta
change • It may sound simple but the truth remains •
Love's got the Power • To lead us fro the dark • Love's
got the power • Just open up your heart • Love's got the
power • Together we can stand • Love's got the power •
The power's in our hands

hard year for the blues (Gomes, Peterik)
It's been a hard year • Hard year for the blues • With all
these bluesmen being called home • Who's gonna be left
to fill their shoes • How many more names • Must fall off
the blues marquee • Heaven must need some healin' • But
Lord have some sympathy • It's been a hard year • Hard
year for the blues • In the silence • Deep in the silence
since they've gone • Now that these legends have left the
bandstand • Who's gonna be left to play their song •
Johnny Copeland, Jimmy Rogers • Fenton Robinson too •
Luther Allison, Junior Wells gone • Ain't a damn thing we
can do • It's been a hard year • Hard year for the blues •
All you gotta do is listen • When your heart feels a heavy
toll • These friends are gone • But they left us a little
part of their soul • It's been a hard year • Hard year for
the blues

wolf in my henhouse (Gomes)
There's a wolf in my henhouse • Somebody get me
shotgun • 'Cause the wolf think he gonna eat chicken •

Wolf • Mr. Wolf don't you come 'round here no more •
While you sneakin' in the back • I'll be waiting for you by
my front door

shame on you (Gomes)
You've been messin' with the butcher • And the plumber
too • When the mailman came on Sunday • I knew we
were through • And then you called the furnace man •
'Cause you said we had no heat • Now he comes to check
your temperature • Seven days a week • And that's a
shame shame shame on you • The landlird came this
morning • He came to get the rent • He didn't leave for
two hours • And didn't leave with a cent • When you test
drove a car • And you'd take it around the block • You
and the salesman left at five • Didn't come back 'til nine
o'clock • And that's a shame shame shame on you • I'm
keep on foolin' round • With every man in town • I'm
gonna put you down • Girl 'cause you keep on giving me
the runaround

brand new day (Gomes)
Sometimes people • Life can throw a curve or two your
way • But don't be worried • 'Cause tomorrow's a brand
new day • You can make it baby • Like you've done a
thousand times before • Sooner or later • The sun's
gonna be shining by your front door • You've got brothers
and sisters • To help you along the way • You're not alone
in this world • That's what I'm here to say

high calorie woman (Gomes)
Baby baby baby • You look so fine to me • You're so sweet
you must be high calorie • Sugarcane sugarcane • You're
just too wild to tame • Ever since my first taste I've never
been the same

Monday kinda Tuesday (Gomes, Peterik)
It's been a Monday kinda Tuesday • Ever since you went
away • You kept on mistreatin' me woman • You didn't
love me no matter what you say • It's been a long long cold
summer • And it's been pouring freezing rain • Woman
you're just like the winter • One big old avalanche of pain
• It's been a Monday kinda Tuesday • And it's always gonna
be that way • Cause everyone else got 3 6 5 • But lord I
